Bicycle Records Lowered.

Springfield (Mass.), October 26th.—

William Woodside, in a ten-mile ride at Hampden Park to-day, lowered the world's record from six to ten miles, inclusive, thought. Popular hesitation over the accept-

once of statutory details suggests merely a safe conservatism. In the initial stage of this re-form there was a response throughout the na-ion. Political contests assumed a new one, old-time methods of corruption vere discouraged, and "bossism" was grappled with fresh vigor. The improvement is yet marked. It the vicious elements still seek ob-rusion into elections, thee chances of thei uccess have been lessened. The reform spiri s militant, and advances towards complete uccess; corruption by official patronage has is militant, and advances towards complete success; corruption by official patronage has been removed. With the imparting of a purer life to official circles, the power of the private purse to purchase political honors will be less dangerous. Public appreciation of the fact that this reform does not trench upon partisanship came late. It was studiously maintained that the civil service was to be composed of men who should abjure certain rights of citizenship. With the gradual but inevitable reputation of this false view the outlines of the reform at last stood forth in clearness. It is a reform which views the civil service as a vast business agency. Its search is for the best attainable merit. In business which is not political, it enforces no tests of party. With a confident trust in the success of your administration, I am your obedient servant, To the President. LEROY D. THOMAN.

As a rule, the parts of animals most exposed to rays of light are, other things being equal, richest in coloring-matter. The acks of wild animals are usually, and with ew exceptions (as among nocturnal and burrowing animals), more strongly colored than their bellies. Another class of exceptions may be seen among fishes of certain families which lie on their sides instead of on their bellies, and expose, not their backs, but one of their sides to the light. In these fishes the upper side is colored, while the darkness, is not. Articulates also have their upper sides most strangely colored, to the dorsal column is next to the groun ng figures. To the Attorney-General of the United States, Washington, D. C.—Sir.: Your attention is respectfully requested to the following facts:

That the Sacramento and the San Joaquin are great navigable rivers of California, whose flow empties through the Suisun and San Pablo bays into the bay and harbor of San Francisco.

That for the improvement of these navigable rivers and their navigable tributaries, and also of the Oakland harbor, whose only outlet is through the bay of San Francisco, the Federal Government has, at various times, expended and is still expending large sums of money.

LOCAL INTELLIGENCE.

CLUNIE OPERA HOUSE .- "Fanchon" was the play last night. Many of those present had seen Maggie Mitchell in the drama, a piece in which she became famous, and in which Alice Kingsbury achieved such phenomenal success. To say that Miss Boyle was successful, is to speak correctly of her effort. She surprised her warmest admirers by her personation of "The Cricket." It was not the old "Fanchon in many respects it was a new interpreta tion. In some it astonished those familia with the piece. For instance, her shadow ventional into a dance that, for abandon and new character, was something to take wenthormal into a dance that, for abandon and new character, was something to take the breath away. But it brought down the house in the fullest sense of that trite phrase. Nor was it an improbable revel with one's shadow in the supposed privacy of the moon-lit woods, even if it introduced, and we first strike it on the road to the lake at a short distance from the wildness and freedom of posturing. So, too, in the first courtship scene, the treatment of Landry's approaches was very different from the rendering familiar to admirers of Miss Mitchell, since it was less like the surprised modesty of the pure maiden. But its very originality made it attractive, and it will find its defenders in plenty. Aside from these features, it was a close approach to the best standards, and in pellot creek for several miles be down and the day to the form the possessed of greater ability what caused the water to be possessed of greater ability.

EXECUTIVE PARDON.—The Governor yes terday pardoned from the State Prison William Roney, who was convicted of burglary at the October term, 1883, of Mer-ced county, and sentenced to four years imprisonment. The pardon sets forth that it was asked for by the Board of State Prison Directors. They set forth that the petition for his pardon is signed by the committing Judge, the Sheriff, the District Attorney and County Clerk, on the grounof information gained since the trial, which convinces them that his sentence shoul be mitigated; also that a position awaits him in the East. The pardon was made conditioned that he should immediately

Beginning with THIS MORNING we shall place on our Furnishing Goods Counters a lot of BOYS' GRAY KNIT MERINO UNDERSHIRTS (sizes, 28 to 34), and DRAWERS (sizes, 26 to 32),

Eastern Purchases.

In order to show the extent of our Eastern purchases, and as an item of interest, we have carefully gone over the arrivals of Eastern freight, as published in the daily newspapers, and find THAT THUS FAR DURING THE YEAR 1885 WE HAVE RECEIVED MORE EASTERN FREIGHT CASES OR PACK-AGES THAN ANY OTHER TWO HOUSES IN SACRA-MENTO IN OUR LINE OF BUSINESS

If there are advantages at all in buying East-and that there are, no one will deny, then the above statement is CONVINCING PROOF in favor of our stores and the advantages which they present.

The fact is, our trade is so large that it justifies us in going into the Eastern markets for the purchase of even the smaller and more unimportant lines when advantages of any kind are to be gained thereby. During the year we have had a number of shipments DI-RECT FROM EUROPE, and it is probable that next season, with an increased trade, we shall buy even more largely there.

Goes Into Operation This Morning.

To-day our new system of Letter-box Orders for local trade goes into operation. As explained the other day, it is intended as an accommodation for persons not living near the store, but who are ofttimes obliged to take the trip simply to make some trifling but necessary purchase. Letter Boxes, with our name upon them, have been erected at the corners of

Tenth and E streets, Sixteenth and K streets, Twelfth and O streets,

Seventeenth and I streets, Twentieth and O streets, Thirteenth and K streets. Thirteenth and H streets, Twentieth and H streets, Tenth and P streets.

The orders will be collected by a mounted messenger at 8:15, 10:45 A. M., 1:45, 4:45 P. M. daily (Sundays excepted). The goods will be sent out as soon as possible after receipt of the orders at the store. Payment will be collected on delivery of goods.

Previous to the commencement of the new subterfuge to circumvent the restrictions on hydraulic mining the Feather was quite clear at this point, but now the element that roils the water and soils the land is again becoming quite prominent, and the waters are losing their wonted clearness. For a distance of ten miles above the bridge the river has but little current, and at the present low stage of water, this section acts as a settler for the debris, so that it takes a great deal to make itself manifest at this point. Above the comparaively dead water the river is quite heavily charged with slickens—the material that settles and does the damage in the lower river beds. This demonstrates that an analysis of the water which runs from the elevator settlers will show that a very large percentage of material is carried in suspension. The Immigration Association of Northern California is now preparing to issue the October number of the "HOME SEEKER." It is to be enlarged, and fully illustrated with lithographic views of Northern California. It will contain practical information of the resources and advantages of the Northern Counties. All the proceeds of this publication will be devoted to the earrying on or immigration work. We appeal to the business men of the Northern part of the State to give it their advertising support. By so doing, the work of bringing an increase of population to the State will be carried on. At Ogden a State will be part in the hands of each incoming passenger. In addition to this, several thousand copies will be distributed on the trains leaving Chicago, IDAN COURT AND CANT. in order to attract the settler intending
